The House on the Cover

No. 6415—A pleasant variety of exterior materials has been combined to produce a distinctive appearance for this modern three bedroom design. The same combination of cut stone, six-inch drop siding, and frieze board is used on all four elevations. Because the house has both a regular dining room and a serving bar in the kitchen, the nook behind the kitchen could be developed for an automatic laundry use instead of a dinette.

Complete Plans Available

Complete working plans, specifications and mill lists are available for every design shown in any of the GARLINGHOUSE plan books. The plans are complete and ready for the builder to start construction of the home. The moderate price of these plan sets represents your best investment when building, since you know in advance what you are getting, thus avoiding misunderstandings.

THE PLANS, SPECIFICATIONS, LUMBER AND MILL LISTS as we have them made up for the designs in our books are sufficient and further details are not needed by any competent builder.

MINOR ALTERATIONS CAN BE MADE BY BUILDERS—It is impractical to change our tracings to show alterations, but minor alterations in design, material substitutions, etc., can be made by any competent builder without going to the expense of making special plans, which usually cost several times the price

of our stock plans. Complete plan sets when ordered will be mailed by parcel post (or air mail anywhere in U. S. if 75c per plan additional is included) within one day after your order has been received by The L. F. Garlinghouse Company.

TO OBTAIN COST ESTIMATES—The square and cubic footage is given for each plan to assist in figuring estimates. An estimate of what it will cost to erect any house illustrated in any of our books, in your locality, may be obtained by consulting your local builder.

ALL PLANS SENT ON MONEY BACK GUARANTEE—All Garlinghouse Plans are sent on a "Money Back If You're Not Satisfied" Guarantee. You have five full days after receiving the plans to study them over and to decide if they will serve your purpose. Plans which are not satisfactory may be returned for prompt exchange or refund.

ORDER YOUR PLANS THIS SIMPLE, EASY WAY!

USE THE HANDY ORDER BLANK ATTACHED! Or just send us your name and address with the plan number from the book and the number of sets you want along with your remittance and we'll have them in the mail within 24 hours after receipt of your order. Garlinghouse plans are complete and the house can be constructed from only one set of plans. However, in most cases, it is wise to include three or four extra sets in your order—one for the builder, a set for your city building department, a set or two for financing, if a loan is required, and of course, you will want a set for yourself to check on the construction as it progresses. Here's what you get:

PLANS—The complete working plans consist of blue prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot. Also, a plot plan in blank to be filled in locally.

SPECIFICATIONS—The specifications list in detail the con-

struction of the house from the excavation to the interior decoration.

LUMBER AND MILL LISTS—The lumber and mill lists consist of an itemized list of lumber and mill materials needed to construct the building and state where each item should be used.

No. 6270—The ranch home without a basement. It has a large utility room with storage space behind the garage as well as storage in the sleeping area. The master bedroom has two closets and a full bath; the other two bedrooms are provided with a large closet each and one bath. You may prefer a home with a vestibule, if so this one you will want to consider. A large fireplace at the right end of the living room adds dignity as well as comfort.

No. 6429—This house is constructed of concrete “bricks,” so named because they are much smaller than the average concrete block used in residential construction. When used in a modern design such as this hipped-roof five-room suburban, they create an extremely pleasing appearance. This house is excellently arranged for the average small family. The kitchen, with its continuous cupboards, is highly efficient. The front bedroom has two closets of wardrobe size, giving an unusual amount of storage space. Casement windows are used throughout.

No. 5588 — A home designed for comfortable and gracious living and suitable for either town or country. Examination of the room arrangement shows the results of careful planning. An enclosed porch is shown in back of the garage affording privacy from a busy street. The bedrooms are large and numerous closets and storage space have been provided. Stairway marked "DN" leads to a full basement. The brick trim shown on the front elevation is a pleasing contrast to the siding shown on the balance of the house.

Your home is a world in itself. Its design and decoration color your life, affect your personality, give security and background to your family unit. Details are important and they make your home important. Do not be satisfied with just a house, make it your own. The finishing touches are entirely up to you and can make your house into a distinctive home.

No. 6592 — This neat and attractive design will attract the attention of anyone passing by. Despite the spread-out plan, close examination of the floor plan diagram will show that the various quarters of the house are compact and well-arranged. The hall leading to the three bedrooms and bath is easily accessible from the front entrance. The living room, with the fire-place located at one end offers many possibilities for furniture arrangement. Construction is frame stuccoed.

No. 6004—In checking the many outstanding features of this plan it is easy to understand why this Southwestern type of plan is increasing in popularity. The plan does not have a basement but the heating unit can be centrally located. Space for washer and dryer is provided just inside the entrance to the bathroom. The efficient U-shaped kitchen shows a modern built-in range and oven. A large nook and storage area are shown. The carport could be enclosed if a garage is required.

No. 5650—A beautiful Ranch house that commands deep study. The rooms have been neatly planned and are well proportioned throughout. One outstanding feature is the all purpose room that is separated from the living room by means of the fireplace wall. The impressive double door entrance, large porch and ornamental ironwork, along with the long, low roof lines give an attractive Western appearance to the exterior. The walls are frame, brick veneered.

No. 6046—The inviting exterior of this well-balanced plan is sure to attract attention wherever the house is built. The floor plan is equally attractive and well planned. The master bedroom has its own bath and two large closets. The other bath serves the other bedrooms. Even though a basement is shown, space has been provided for utilities on the main floor.

No. 6262—Both vertical and horizontal siding makes this a home to be desired. The arrangement of the rooms uses all available space to the best advantage. Three bedrooms with two full baths are well removed from the living quarters. There are double closets in each of the corner bedrooms. A half bath is conveniently located by the kitchen and working areas. The spacious living room connecting with the large family room by accordian doors provides ample room for the entertainment of your guests. The fireplace and book cases make a very attractive interior for the living room. Your family and guests will also enjoy the terrace just outside the family room.

No. 6050—Vertical siding and brick trim have been used to emphasize the beauty of the picture window in this Southern bungalow. The rest of the exterior is of shingle construction. Built over a four-inch concrete slab, this house is suitable for most areas since construction details call for adequate sub-floor insulation and vapor-proofing. The roof is of the built-up type.

LOOK TO **Donley**

FOR THE FINEST

IN SUCCESSFUL FIREPLACES

Your fireplace must be built right to work right. For more than a quarter of a century, Donley has been acclaimed for successful fireplaces by architects and contractors.

Now Donley offers you two exciting books to help plan your fireplace. Filled with more than 300 illustrations, the new 80-page 8½ x 11-inch "Book of Successful Fireplaces" has all the information you'll need for building an indoor fireplace. It covers modern, traditional, rustic, corner, two-faced and three-way fireplaces . . . factors in fireplace planning . . . step-by-step building methods . . . correcting faulty construction . . . mantel and facing treatments, etc. Included is the famous Heatsaver warm air circulating fireplace which can serve as an economical heating unit.

The new 32-page 8½ x 11-inch booklet, "Donley Outdoor Fireplaces," describes all types of barbecues . . . for your yard, patio, recreation room or "living" kitchen. Both books are packed with valuable data and working drawings. Be sure your fireplace is a pleasure . . . not a problem. Write today for your fireplace guide.
